

Danilo Jakob

Full-Stack Software Engineer

Chur, Switzerland | danilojakob@protonmail.com | +41 79 385 64 79

me.churrer.dev | github.com/DaniloMurer

Location: Currently based in Chur, Switzerland. **Relocation:** Self-funded relocation to Helsinki, Finland planned for April 2027; will complete DVV registration and be locally based before start date. **Work authorization:** German citizen — EU freedom of movement applies; free to live and work in Finland without a visa or work permit.

SUMMARY

Full-stack Software Engineer with 8 years of experience (including a 4-year apprenticeship) building cloud-native enterprise applications across the stack: backend development in Java, Spring Boot, Go, and Kotlin, SAP ABAP/Gateway integrations, and modern TypeScript frontends with Vue, Nuxt, and Quasar. Experienced in designing, deploying, and operating applications on Kubernetes and OpenShift with Docker-based CI/CD pipelines, and in building observability with the ELK Stack and APM. Enjoys working across the full stack and improving developer and deployment workflows in close-knit, autonomous teams.

EXPERIENCE

Software Engineer — Würth IT Switzerland AG

Aug 2022 – Present

Chur, Graubünden

- Developing and maintaining backend services in Java (Spring Boot, Java EE, Vaadin), Go, and Kotlin
- Building and maintaining SAP UI5 / SAP ABAP and SAP Gateway applications for Würth's transportation management
- Developing frontends with Vue, Nuxt, Quasar, and TypeScript
- Migrating and operating applications on OpenShift and Kubernetes, containerized with Docker
- Building and maintaining DevOps tooling and CI/CD pipelines for Kubernetes environments
- Implementing observability and monitoring solutions using the ELK Stack and APM

Software Developer Apprentice — Würth IT Switzerland AG

Aug 2018 – Aug 2022

Chur, Graubünden

- Completed a 4-year apprenticeship (EFZ) as a software developer, gaining foundational experience across the full software development lifecycle, including Java-based application development and early exposure to DevOps practices

SKILLS
